#### THE WINEMAKING

Fruit is picked at first light to optimize acidity and flavor profile. After field-sorting, the fruit is whole cluster pressed, and the juice settled for 24 hours before racking to barrel to be fermented. During the cellaring months the wine is monitored with minimal intervention to allow its natural terroir to shine. After 10 months of barrel aging sur lie, the wines are bottled without filtration to capture the delicate flavors and aromas unique to each block.

## THE **ÈLEVAGE**

2017 Home Block was fermented and aged in barrel. These barrels came from the French cooperages François Frères and Louis Latour. 1 of 3 barrels was new oak.

## **ABOUT HOME BLOCK**

Home Block is one of three historic chardonnay blocks at Spring Ridge Vineyard. It is the highest elevated block, spanning between 840 to 805 feet above sea level. Planted in 1981, Home Block was the first vineyard block established at Spring Ridge Vineyard. Home Block was named 'Home' as it is planted next to the original dwelling on the Neely estate (1912). This home still stands today, and serves as the main residence for Neely's current proprietors.

Home Block consists of a soil blend of 27% sand, 48% silt, and 25% clay.
